System Administrator · IT Infrastructure · Web Developer · Project Manager

+7 (933) 911-13-33 johnngorn@yandex.ru · <https://johnngorn.ru/> Telegram / WhatsApp / Max <https://johnngorn.online/> Moscow

OBJECTIVE & TERMS

Position: System Administrator

Salary: from 175 000 RUB net

Employment: full-time, on-site at the employer; commute up to one hour

About: 44 years old (17.09.1981) · Russian citizenship, RF work permit · not open to relocation, open to business trips · own car

SUMMARY

System administrator with over 20 years in IT — it is my true calling. For more than 10 years I have administered complex infrastructures across a range of organizations, responsible for servers, networks, security and user support. Extensive hardware-procurement experience: I independently calculated both the technical and the commercial parts.

I value meaningful work with tangible results; my approach is built on honesty, transparency and open dialogue. Awarded a Presidential Certificate of Honour (2006) for contribution to preparing the Referendum, and a certificate of merit from the state administration for many years of dedicated service (2017). Additionally organized and delivered more than 30 technical conferences featuring world-leading brands.

KEY COMPETENCIES

Servers & OS: Windows Server, Linux, VMware ESXi, Hyper-V, Proxmox VE.

Networking: TCP/IP, DNS, DHCP, VPN (OpenVPN, WireGuard, IPsec), VLAN, NAT.
